Classroom Antics Now Offers Tutoring Services

[Classroom Antics](#) is pleased to announce it is now providing tutoring services in the areas of Science, Technology, Engineering, and Math (STEM) to individuals and homeschool groups on a contract basis. These tutoring services are being offered in addition to their existing successful STEM-focused programs.

Classroom Antics has for years been delivering fun educational hands-on STEM programs that promote enrichment, creativity, and teamwork in the safest environment possible. Now they are able to offer individuals and small groups the opportunity to take advantage of Classroom Antics' outstanding curriculum and experience in science and technology.

Classroom Antics is able to provide these tutoring services in the areas of science, video game design, LEGO® robotics, stop-motion animation, and computer programming. And Classroom Antics is willing to customize their STEM programs to meet the varying needs of individuals and homeschool groups.

"Offering tutoring services is a great way to increase the number of students we can educate in the areas of Science, Technology, Engineering, and Math and we are very excited to now be offering this service," says Kit John, Program Coordinator for Classroom Antics.

Any individual or homeschool group that is interested in having Classroom Antics offer them an individualized STEM educational experience is asked to call 800-595-3776 to discuss.

Classroom Antics is a leading provider of STEM learning programs for kids, located in Cleveland, Ohio. The organization is focused on giving students hands-on experiences that enhance learning, increase creativity, and encourage collaboration. They currently offer educational programs in over 30 locations throughout Cleveland, Columbus, Cincinnati, and Northern Kentucky. For more information about Classroom Antics, visit www.ClassroomAntics.com or call 800-595-3776.
